D.O. letter No.733, dated Bangalore, 9th February 1911, received from the Residency.

****

I am desired to state, for the information of the Durbar, that the question of introducing legislation on the subject of Aeroplanes is now engaging the attention of the Government of India. The lines on which such legislation will proceed are not yet determined, but it is probable that some restrictions will be imposed on the acquisition of such machines in British India. In the meanwhile, the Government of India have decided not to place any obstacle in the way of the purchase by Native Chiefs and respectable persons of flying machines in reasonable quantities. All that they require at present is that particulars of such transactions should be reported to them, so that there may be a record of the number and class of flying machines existing in India.

2. I am therefore to request that particulars of any such transactions in the Mysore State may be furnished to this Residency.
